Time is not your friend, corrosion begins the moment an asset is placed in the environment! Understanding and having knowledge of the condition of existing transmission assets is a key element to long term planning for any transmission owner. Transmission lines are only as strong as their weakest towers, so proper programs for inspecting and repairing existing infrastructure are important for maintaining system reliability, and keeping lines energized for utility clients.

**Factory applied galvanic coatings deteriorate**

**Corrosion reduces service life of an asset**

**Corrosion creates safety risks**

**Corrosion increases costs and delays to replace structures**

## Our services

### Non-destructive testing (NDT)

Ensure structural integrity with Ampjack's precise non-destructive testing methods.

### Development of maintenance programs

Optimize longevity with Ampjack's comprehensive maintenance program development.

### Engineering tower upgrades

Elevate tower performance with Ampjack's tailored engineering upgrade solutions.

### Geotechnical studies

Navigate foundation challenges with Ampjack's thorough geotechnical studies and analyses.

### Above and below-grade steel inspections

Enhance structural resilience through meticulous above and below-grade steel inspections.

### Coatings

Protect against corrosion with Ampjack's advanced and durable coating solutions.

### Cathodic protection design and Installation

Shield against corrosion with Ampjack's expertly crafted cathodic protection systems.

**After corrosion repair**

# Maximize efficiency, minimize downtime

## Expertise you can trust

With over a decade of industry experience, Ampjack is your trusted partner in construction innovation. Our team's expertise ensures precise and reliable project execution. Choose Ampjack for tailored engineering solutions.

## Unlock your infrastructure's potential

Ampjack specializes in maximizing your existing transmission infrastructure's efficiency and capacity. Don't let untapped potential go to waste—partner with Ampjack to optimize your assets.

## Empowering your future

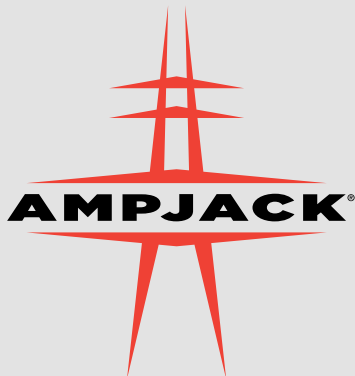

Take the next step with Ampjack. Our commitment to sustainability and client satisfaction drives us to exceed expectations. Contact us to empower your projects and propel your success.
