

# Foundation repair & upgrade services

Ampjack's foundation repair solutions encompass a comprehensive array of services tailored to address a wide range of structural challenges. From meticulous above and below-grade inspections to identify underlying issues to concrete rehabilitation and surface coating restoration, we ensure the integrity and longevity of foundations. Structural repairs are executed with precision, utilizing advanced methods to rectify damages and fortify the foundation against future stressors. We also offer upgrade designs to modernize existing foundations, enhancing their resilience and performance.
